

10D You Spin Me Round (Rotate)

SHOW YOUR WORK AND WORK IN PENCIL

Name: _____ Per: _____

Due Date: March 20th / March 21st

- Rotate the following and **accurately** label each new image:
 - Rotate point A CCW 90° about the origin. Label A' .
 - Rotate point A 180° about the origin. Label A'' .
 - Rotate point A CCW 270° about the origin. Label A''' .
 - What do you notice about the point of rotation $(0,0)$ and $A, A', A'',$ and A''' ? _____
 - Do the same 3 rotations for point B and C about the point $(0,0)$.
 - Putting your **compass** on the point of rotation, what do you notice about the points $B, B', B'',$ and B''' ? _____

2. Perform the following rotations counter-clock wise (CCW) and label your new image.

<p>a. Rotate 180° about $(0,0)$</p>	<p>b. Rotate 90° about $(0,0)$</p>	<p>c. Rotate 270° about the origin</p>
--	---	--

3. Perform the following rotating on $\triangle EFG$

- Rotate $\triangle EFG$ CCW 90° about $(0,0)$ and label as $\triangle E'F'G'$.
- Rotate $\triangle EFG$ 180° about $(0,0)$ and label as $\triangle E''F''G''$.
- Rotate $\triangle EFG$ CCW 270° about $(0,0)$ and label as $\triangle E'''F'''G'''$.

4. The vertices of $\triangle ABC$ are $A(-5,1), B(-3,6), C(2,3)$.

- Plot and label $\triangle ABC$ on the coordinate plane.
- Reflect $\triangle ABC$ over $y = 1$ and label the new image as $\triangle A'B'C'$.
- Reflect $\triangle A'B'C'$ over $y = -4$ and label the new image as $\triangle A''B''C''$.
- What **one** transformation would be the same as this double reflection? _____

5. Use the grid at right to answer the following questions.

- Plot the points $A(-5, 8)$ and $B(3, -2)$.
- Find the midpoint of \overline{AB} on the grid. _____
- Mathematically find the midpoint of the \overline{AB} without the grid.
- Find the perpendicular bisector \overline{AB} .
- CONSTRUCT the perpendicular bisector for \overline{AB} .
- Find the length (distance) of the \overline{AB} . **SYW.**

6. Perform the following on $\triangle CDE$ and label.

- Rotate 180° about the origin
- Reflect $\triangle CDE$ over the x-axis

7. Perform the following on $PQRS$ and label.

- Rotate CCW 90° about the origin
- Reflect over the line $y = -x$

8. Reflect $\triangle FGH$ over $y = \frac{1}{2}x - 4$ and label.

- Draw lines from F to F' , G to G' and H to H' .
- What do you notice about these three lines?

9. Reflect $\triangle ABC$ over $y = -2x - 3$ and label.

- Draw a line from B to B'
- What do you notice about this line and your line of reflection?

10. Use the end points of $A(5, -8)$ and $B(-2, 13)$ to a line segment.

- What is the slope of the line segment \overline{AB} ? _____ What is the slope of the line perpendicular to \overline{AB} ? _____
- What is the midpoint of the line segment \overline{AB} ? _____
- Write the equation of the perpendicular bisect of line segment \overline{AB} _____
